SPECIAL NOTES

*DMPs Dock Master Plans - OCRM is reviewing the listed DMPs for planning purposes only. Permitting decisions will occur when future dock applications are processed by OCRM for individual property owners. This document is used as a planning tool it is not subject to the appeal. OCRM welcomes comments from the public on these planning documents.

**WMPs Wetland Master Plans – OCRM is reviewing the listed WMPs for planning purposes only. Permitting decisions will occur when future applications are processed by OCRM, which include impacts to freshwater wetlands. This document is used as a planning tool; it is not subject to appeal. OCRM welcomes comments from the public on these planning documents.

***SWMPs Stormwater Master Plans – OCRM is reviewing the listed SWMPs for planning purposes only. Permitting decisions will occur when future applications are processed by OCRM. OCRM welcomes comments from the public on these planning documents.

****PERs Preliminary Engineering Reports – OCRM is reviewing the lists PERs for the purpose of commenting to other sections of DHEC concerning this document. OCRM will not be issuing a coastal zone consistency certification at this time but providing comments. If this proposal moves forward to the permitting process, OCRM would at that time do a full coastal zone consistency review.

Permit Number: OCRM-07-265-M
Permit ID: 60645

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Randolph Johnson
C/o Cox Marine
3420 Maybank Hwy
Johns Island, SC 29455

LOCATION: On and adjacent to a tributary of the Kiawah River at 2835 Old Drake Drive, Seabrook Island, Charleston County, South Carolina. TMS#: 149-10-00-058.

WORK: The work as proposed and shown on the attached plans consists of constructing a dock. Specifically, the structure will have a 4' by 214' walkway, with handrails, leading to a 10' by 12' covered fixed pierhead with benches and handrails. The applicant also proposes to install a 7' by 20' floating boatlift on the ebb side of the fixed pierhead. The purpose of the activity is for the applicant's private recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before November 3, 2007. For further information please contact the project manager for this activity, Fred Mallett at 843-953-0236.

PERMIT APPLICATION PUBLIC NOTICE**

October 19, 2007

Permit Number: OCRM-07-277-R
Permit ID: 60879

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: James Kirwan and John Nagel
C/O John Nagel
1653 Sewee Fort Rd
Mount Pleasant, SC 29466

LOCATION: On and adjacent to Toomer Creek at 1649 & 1653 Sewee Fort Rd, Wheatstone at Parkwest, Mount Pleasant, Charleston County, South Carolina. TMS#: 594-120-0110, 594-120-0109.

WORK: The work as proposed and shown on the attached drawings consists of constructing a joint-use dock. The applicants seek to build a 4' x 21' walkway leading to a 5' x 10' pierhead. On both sides of the pierhead, davit systems are proposed. The work as described is for the applicants joint, recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before November 3, 2007. For further information please contact the project manager for this activity, Tess Rodgers at 843-953-0233.

PERMIT APPLICATION PUBLIC NOTICE**

October 19, 2007

Permit Number: OCRM-07-286-B
Permit ID: 60381

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Mixon Avenue Partnership, LP
C/O Newkirk Environmental, Inc.
P.O. Box 746
Mt. Pleasant, SC 29465

LOCATION: On and adjacent to the marshes of Noisette Creek between Barnwell Avenue and South Rhett Avenue, North Charleston, Charleston County, South Carolina.
TMS#: 470-12-00-001, 470-12-00-094, and 470-12-00-033.

WORK: The work as proposed and shown on the attached plans consists of constructing a 40' wide by 120' long vehicular bridge across a tidal marsh area and installing, by directional bore, a 77' long 10" diameter waterline, a 77' long 2" diameter cable line, and a 77' long 2" diameter electrical line under the proposed bridge in the marshes of Noisette Creek. The purpose of the proposed work is to provide vehicular access to upland areas and provide utilities for residential development.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before November 18, 2007. For further information please contact the project manager for this activity, Steven Brooks at (843) 953-0235.

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Charleston County Roadwise Program
C/o LPA Group, Inc.
P.O. Box 5805
Columbia, SC 29250

LOCATION: On and adjacent to the marshes on a tributary of the Kiawah River at Blackground Road, Johns Island, Charleston County, South Carolina. No TMS.

WORK: The work as proposed and shown on the attached plans consists of placing fill material in tidal wetlands. Specifically, the applicant proposes to fill approximately 0.08 of an acre of brackish marsh within the right-of-way of an existing county road slated for extension and additional paving. The purpose of the activity is for road improvements and access.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. PO Box 1147
Augusta GA 30903

LOCATION: On and adjacent to Port Royal Sound at 45 Bay Point Road (for four lots), St Helena Island, Beaufort County, South Carolina.
TMS#: R300-041-000-0013-0000.

WORK: The work as proposed and shown on the attached plans consists of constructing a private joint use dock. Specifically, the structure will have a 4'x150' walkway with handrails leading to a 16'x16' covered fixed pierhead with water and electricity. Channelward of the pierhead will be a 3'x24' ramp leading to a 12'x25' floating dock. Also, proposed off the right of the pierhead will be a 12'x16' four pile boatlift. The purpose for the dock is for the owner's private recreational joint family use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before November 3, 2007. For further information please contact the project manager for this activity, Geordie Madlinger at 843-846-9400.

TO ALL INTERESTED PARTIES

Notification of Public Notice

Enclosed are public notices issued by the SCDHEC Office of Ocean and Coastal Resource Management and the U.S. Army Corps of Engineers. All interested parties are allowed 30 days for major developments and 15 days for minor developments after receipt of the public notices to file written comments to the OCRM pertaining to the applications. Only those comments received within this period must be reviewed by the OCRM in processing the permit application. Any person wishing notification of the initial OCRM decision on any specific public notice must make written request within the designated review period for that public notice.

PUBLIC NOTICE

CLARIFICATION

Lawrence Culp, P/N# 2007-2127-2IM-P

The Army Corps of Engineers (ACOE) has placed the above application on a Joint Public Notice on October 19, 2007. The ACOE has listed that the bulkhead will be behind the OCRM line, however there are portions that will encroach channelward of the OCRM line and will need direct authorization from OCRM. **Comments will therefore be received by OCRM on both the dock and bulkhead components for this notice.**

Comments will be received on this public notice at the address below until November 3, 2007. For further information, please contact the project manager, Fred Mallett, 843-953-0326

McLEAN, VA 22102

for a permit to construct a dock in the

BASS CREEK

At Lot 68, in the Otter Island Subdivision, Kiawah Island, Charleston County, South Carolina (Latitude 32.61456, Longitude -80.043756)

In order to give all interested parties an opportunity to express their views

NOTICE

is hereby given that written statements regarding the proposed work will be received by both of the above mentioned offices until

12 O'CLOCK NOON, MONDAY, NOVEMBER 19, 2007

from those interested in the activity and whose interests may be affected by the proposed work.

The proposed work consists of the modification of an existing structure currently consisting of a 122' walkway leading to an existing 8' x 20' floating dock connected with a 4' x 20' gangway as seen on sheet three of the attached drawings. The modification of the structure will consist of adding a 25' x 10' pierhead to the existing walkway, relocating the gangway and floating dock downstream of the proposed pierhead, and adding a 12' x 12' four pile boatlift to the landward side of the proposed pierhead. Additionally, the applicant has proposed to construct 970 linear feet of bulkhead above the OCRM critical line. Since the bulkhead will be placed above the OCRM Critical line and no waters of the U.S. will be impacted, a permit will not be required for this activity. See attached drawings for details. This public notice therefore is only for the proposed dock modifications. The purpose of the proposed work, as stated by the applicant, is for the owner's private, recreational use.

NOTE: Plans depicting the work described in this notice are available and will be provided, upon receipt of a written request, to anyone that is interested in obtaining a copy of the plans for the specific project.

October 19, 2007

The request must identify the project of interest by public notice number and a self-addressed stamped envelope must also be provided for mailing the drawings to you. Your request for drawings should be addressed to the

The work shown on this application must also be certified as consistent with applicable provisions of the Coastal Zone Management Program (15 CFR 930). The District Engineer will not process this application to a conclusion until such certification is received. The applicant is hereby advised that supplemental information may be required by the State to facilitate the review. Persons wishing to comment or object to State certification must submit all comments in writing to the South Carolina Department of Health and Environmental Control at the above address within thirty (30) days of the date of this notice.

This initiates the Essential Fish Habitat (EFH) consultation requirements of the Magnuson-Stevens Fishery Conservation and Management Act. Implementation of the proposed project would impact estuarine substrates and emergent wetlands utilized by various life stages of species comprising the red drum, shrimp, and snapper-grouper management complexes. Our initial determination is that the proposed action would not have a substantial individual or cumulative adverse impact on EFH or fisheries managed by the South Atlantic Fishery Management Council and the National Marine Fisheries Service (NMFS). Our final determination relative to project impacts and the need for mitigation measures is subject to review by and coordination with the NMFS.

The District Engineer has consulted the most recently available information and has determined that the project will have no effect on any Federally endangered, threatened, or proposed species and will not result in the destruction or adverse modification of designated or proposed critical habitat. This public notice serves as a request to the U.S. Fish and Wildlife Service and the National Marine Fisheries Service for any additional information they may have on whether any listed or proposed endangered or threatened species or designated or proposed critical habitat may be present in the area which would be affected by the activity, pursuant to Section 7(c) of the Endangered Species Act of 1973 (as amended).

Pursuant to Section 106 of the National Historic Preservation Act (NHPA), this public notice also constitutes a request to Indian Tribes to notify the District Engineer of any historic properties of religious and cultural significance to them that may be affected by the proposed undertaking.

In accordance with the NHPA, the District Engineer has also consulted the latest published version of the National Register of Historic Places for the presence or absence of registered properties, or properties listed as being eligible for inclusion therein, and this worksite is not included as a registered property or property listed as being eligible for inclusion in the Register. To insure that other cultural resources that the District Engineer is not aware of are not overlooked, this public notice also serves as a request to the State Historic Preservation Office to provide any information it may have with regard to historic and cultural resources.

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Requests for a public hearing shall state, with particularity, the reasons for holding a public hearing.

The decision whether to issue a permit will be based on an evaluation of the probable impact including cumulative impacts of the activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from

REGULATORY DIVISION

Refer to: P/N #2007-2127-2IM

October 19, 2007

the project must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the project will be considered including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, flood plain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production and, in general, the needs and welfare of the people. A permit will be granted unless the District Engineer determines that it would be contrary to the public interest. In cases of conflicting property rights, the Corps of Engineers cannot undertake to adjudicate rival claims.

The Corps of Engineers is soliciting comments from the public; Federal, state, and local agencies and officials; Indian Tribes; and other interested parties in order to consider and evaluate the impacts of this activity. Any comments received will be considered by the Corps of Engineers to determine whether to issue, modify, condition or deny a permit for this project. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the activity.

If there are any questions concerning this public notice, please contact Christopher Mims, at 843-329-8044 or toll free at 1-866-329-8187.

MAJOR ACTIVITY

September 21, 2007

Pursuant to Section 10 of the Rivers and Harbors Act of 1899 (33 U.S.C. 403), and the South Carolina Coastal Zone Management Act (48-39-10 et seq.) an application has been submitted to the Department of the Army and the South Carolina Department of Health and Environmental Control by

NECK DEVELOPERS, LLC
C/O THE BRIGMAN COMPANY, INC
PO BOX 1532
CONWAY, SOUTH CAROLINA 29528

for a permit to construct four joint-use piers with floating docks and one community pier with a floating dock in

WILLIAMS CREEK

located adjacent to and south of Little River Neck Road approximately 2.5 miles east of S.C. Highway 9 in the Little River Township, Horry County, South Carolina (Latitude: 33.84691°N; Longitude 78.61248°W).

In order to give all interested parties an opportunity to express their views

NOTICE

is hereby given that written statements regarding the proposed work will be received by both of the above mentioned offices until

12 O'CLOCK NOON, MONDAY, OCTOBER 22, 2007

from those interested in the activity and whose interests may be affected by the proposed work.

The proposed work consists of constructing four joint-use docks and one community dock each consisting of a 12' by 12' fixed pierhead attached to an 8' x 12' floating dock by a 4' wide gangway. All docks are accessed by walkways ranging from 4' x 10' to 4' x 231' as shown on drawing 4 of 5.

NOTE: Plans depicting the work described in this notice are available and will be provided, upon receipt of a written request, to anyone that is interested in obtaining a copy of the plans for the specific project. The request must identify the project of interest by public notice number and a self-addressed stamped envelope must also be provided for mailing the drawings to you. Your request for drawings should be addressed to the

The work shown on this application must also be certified as consistent with applicable provisions of the Coastal Zone Management Program (15 CFR 930). The District Engineer will not process this application to a conclusion until such certification is received. The applicant is hereby advised that supplemental information may be required by the State to facilitate the review. Persons wishing to comment or object to State certification must submit all comments in writing to the South Carolina Department of Health and Environmental Control at the above address within thirty (30) days of the date of this notice.

This initiates the Essential Fish Habitat (EFH) consultation requirements of the Magnuson-Stevens Fishery Conservation and Management Act. Implementation of the proposed project would impact 0.09 acre of estuarine substrates and emergent wetlands utilized by various life stages of species comprising the red drum, shrimp, and snapper-grouper management complexes. Our initial determination is that the proposed action would not have a substantial individual or cumulative adverse impact on EFH or fisheries managed by the South Atlantic Fishery Management Council and the National Marine Fisheries Service (NMFS). Our final determination relative to project impacts and the need for mitigation measures is subject to review by and coordination with the NMFS.

The District Engineer has consulted the most recently available information and has determined that the project will have no effect on any Federally endangered, threatened, or proposed species and will not result in the destruction or adverse modification of designated or proposed critical habitat. This public notice serves as a request to the U.S. Fish and Wildlife Service and the National Marine Fisheries Service for any additional information they may have on whether any listed or proposed endangered or threatened species or designated or proposed critical habitat may be present in the area which would be affected by the activity, pursuant to Section 7(c) of the Endangered Species Act of 1973 (as amended).

Pursuant to Section 106 of the National Historic Preservation Act (NHPA), this public notice also constitutes a request to Indian Tribes to notify the District Engineer of any historic properties of religious and cultural significance to them that may be affected by the proposed undertaking.

In accordance with the NHPA, the District Engineer has also consulted the latest published version of the National Register of Historic Places for the presence or absence of registered properties, or properties listed as being eligible for inclusion therein, and this worksite is not included as a registered property or property listed as being eligible for inclusion in the Register. To insure that other cultural resources that the District Engineer is not aware of are not overlooked, this public notice also serves as a request to the State Historic Preservation Office to provide any information it may have with regard to historic and cultural resources.

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Requests for a public hearing shall state, with particularity, the reasons for holding a public hearing.

The decision whether to issue a permit will be based on an evaluation of the probable impact including cumulative impacts of the activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the project must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the project will be considered including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards,

September 21, 2007

flood plain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production and, in general, the needs and welfare of the people. A permit will be granted unless the District Engineer determines that it would be contrary to the public interest. In cases of conflicting property rights, the Corps of Engineers cannot undertake to adjudicate rival claims.

The Corps of Engineers is soliciting comments from the public; Federal, state, and local agencies and officials; Indian Tribes; interested parties in order to consider and evaluate the impacts of this activity. Any comments received will be considered by the Corps of Engineers to determine whether to issue, modify, condition or deny a permit for this project. To make this decision, comments are used to assess impacts on endangered species, the quality of the environment, and the other public interest factors listed in the preparation of an Environmental Assessment and/or an Environmental Impact Statement in accordance with the National Environmental Policy Act. Comments are also used to determine the overall public interest of the activity.

If the comments are received in this notice, please contact Wiley Bracey at 843-365-1707.
